# Premier Software & Peripherals

Wintex Software

Texecom's user-friendly Windows™ based software provides complete upload/download & systems diagnostics for total control & flexibility.

Windows is a registered trademark of Microsoft Corporation

Texbase Software

Alarm management software package for use in conjunction with the Premier Com IP & Montex Software. Allows installers to individually monitor their installed security systems for specific alarm signals.
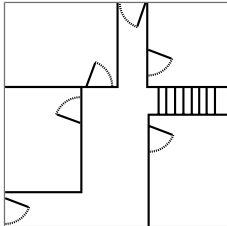

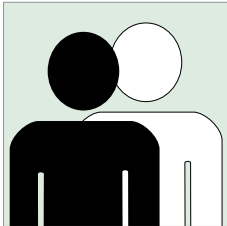

Montex Software

Software based alarm receiver interface for connecting with Premier ComIP alarm signalling equipment. Supports fast format, contact ID & SIA communication protocols. Manages received polling information for each monitored site.

USB-Modem

Designed specifically for use with Wintex UDL software & a PC to allow trouble free uploading/ downloading with Premier Series control panels.

Premier Series

Grade 3 Communicating Control Panels

Representing the pinnacle of control panel design, the Premier Series of Grade 3 communicating control panels are designed to service professional, commercial locations. Featuring a modular expansion system & utilising the same intuitive programming platform & peripheral devices, Premier Series control panels provide the flexibility required to suit the demands of any installation .

Premier 24   G3

8 Zones Expandable To 24
16 User Codes
500 Event Log Time & Date Stamped
Plug-on Digimodems
Available in Polymer Housing (G2)

Premier 48   G3

8 Zones Expandable To 48
4 Areas
25 User Codes
500 Event Log Time & Date Stamped
Plug-on Digimodems

Premier 88   G3

8 Zones Expandable To 88
8 Areas
50 User Codes
1000 Event Log Time & Date Stamped
Plug-on Digimodems

Premier 168   G3

8 Zones Expandable To 168
16 Areas
200 User Codes
2000 Event Log Time & Date Stamped
Plug-on Digimodems

Premier 640   G3

Expandable To 640 Zones
64 Areas
500 User Codes
5000 Event Log Time & Date Stamped
Plug-on Digimodems

Texecom
Designed to Perform

Premier Keypads

The range of compatible LCD keypads is used to programme all features, incorporating high-visibility menu driven LCD displays, proximity tags & a flush mount design. Premier Keypads emphasise aesthetic quality without compromising performance or reliability.

Premier LCD/LCDP   G3

Remote Keypads with standard 32 character LCD display. Incorporates 2 DP or EOL zones & 1 programmable. LCDP features built-in proximity tag reader.

Premier LCDL/LCDLP   G3

All the features of the LCD/LCDP plus large 32 character LCD display & speaker driver output for programmable volume control. LCDLP features built-in proximity tag reader.

Premier Elite Keypads   G3

Flush mount and surface versions of the LCDP/LCDLP available in diamond black, gunmetal, satin chrome, polished chrome, polished brass & white polymer (FMK only). All feature a large blue LCD screen.

Proximity Tag

Proximity tag for use with LCDP & LCDLP remote keypads.

Premier Expanders

Texecom's complete range of expansion units allows modular system design providing maximum flexibility & ensuring future-proof installations.

Premier 4XP   G3

Remote 4 Zone Expander providing an additional 4 programmable DP or EOL zones & 2 programmable outputs. Module replaces two keypads for additional zone expansion.

Premier 8XP   G3

Remote 8 Zone Expander providing an additional 8 programmable DP or EOL zones, 8 programmable outputs, 1 auxiliary input & a speaker driver output with programmable volume control.

Premier RM8   G3

Relay Module providing 8 additional relay switch options.

Premier 8XE   G3

Local plug-on 8 Zone Expander provides an additional 8 programmable EOL zones, for use with the Premier 24 control Panel.

Premier OP8   G3

Local plug-on Output expander provides an additional 8 programmable outputs, each rated at 100mA negative applied.

Premier OP16   G3

Remote Output expander provides an additional 16 programmable outputs, each rated at 100mA negative applied.

Premier 24iXD   G3

24 zone iD[†] expansion module for use with the Premier 24 control panel.

Premier 60iXD   G3

Expansion module providing two iD[†] loops each supporting 30 iD[†] biscuits.

[†] iD is a trademark of Novar Systems Ltd.

Premier Communicator Modules

Texecom's range of interchangeable Premier Communicators offer a variety of protocols, interface formats & multi-path transmission routes to fulfil any signalling requirement.

Premier Com300   G3

Plug-on multi-protocol digital communicator/ 300-baud modem. Enables full upload/download & system programming diagnostics.

Premier Com2400   G3

Plug-on multi-protocol digital communicator/ 2400-baud modem enabling SMS text messaging. Enables full upload/download & system programming diagnostics.

Premier ComGSM   G3

Provides SMS text messaging for communication of alarm events, remote control & remote diagnostics.

RP9 RadioPad   G3

Secure wireless multi-protocol digital communicator/data modem. Enables full upload/ download & system programming diagnostics.

Premier ComIP   G3

Allows connection from the Premier 48,88,168 or 640 control panel to a Local or Wide Area Network (LAN/WAN). This allows alarms to be signalled over an IP network to an alarm receiving centre via Texecom's Montex Software.

Premier Home Automation & Access Control

Always pushing back the boundaries of features & functions, Premier Series control panels now have additional home automation & access control building management capabilities.

Home Automation

Premier X10-Com   G3

Connects to an X10 power line interface & allows up to 8 uniquely controlled X10 devices, such as wall sockets & light switches, to be controlled via the control panel. Compatible with the Premier 48/88/168/640 control panels.

Access Control

Premier iProx   G3

Provides support for Texecom proximity tags & other standard 26 bit wiegand readers. Tags can be learnt & stored locally with the controller in stand-alone mode, allowing the unit to be used as a single door access controller.

Premier External iProx Coil   G3

When used in conjunction with the Premier iProx & Texecom Proximity Tags allows the user to disarm the system externally. The unit can also be used as a single door access controller, by using it as a stand alone module with the Premier iProx.
